WELCOME

Most college/university campuses now have a very diverse

population that demands that we as health care professionals seek unique means to meet their health/wellness demands. This is particularly true when it comes to addressing life style changes such as tobacco and alcohol use, and for accessing health care.

This year's conference theme reflects these challenges. We hope that you will come and share your thoughts and also gain some insight to take back home.

We look forward to seeing you in Detroit!

- Judy Lyle,
MACHA President
