Core Institute

Booth # 108

The surveys offered by the Core Institute quantify and document college students' attitudes, perceptions, and opinions about alcohol and drugs; the surveys also measure use and consequences of use. The target audiences of the products and services offered by the Core project are college presidents, administrators, and others involved in student life and quality of the college campus environment. The primary focus of our organization is measurement. We assist clients with all aspects of data collection. We typically begin the process with survey design, IRB approval, and methodology. The next step is data compilation which can be

paper-based or web-based. Finally, the results of the clients' research efforts are provided in various formats depending on the individual institution's level of expertise or grant/contract requirements.

Dispensing Solutions, Inc.

Booth # 417

Dispensing Solutions Inc. (DSI), which was founded in 2001, is the fastest growing pharmaceutical dispensing company in the US. The Southern California-based company has evolved into one of the largest dispensing companies in the nation, surpassing companies that have been in the repackaging industry for decades. DSI's management team has over 100 years of related experience — the strongest operational platform in the industry. The company is committed to expanding its position as the premier pharmaceutical supply chain partner by developing integrated dispensing solutions that enable optimal patient care.

EHS

Booth # 116, 118

For more than 40 years, Health Edco has developed an extensive line of innovative materials that bring health education to life.

Highland Campus Health Group

Booth # 206

Highland Campus Health Group helps campus health centers generate significant incremental revenue and reduces the cost of health care for students. Our zero-upfront-cost turnkey solution includes insurance billing and collections, provider credentialing, managed care contract negotiation, coding and compliance training, student and parent marketing, IT interfacing, and more. Effective September 2010, health insurance legislation permits students to remain on their parent's insurance until age 26. Revenue opportunities for your campus health center should increase accordingly.

Hulse/QM®

Booth # 318

Hulse/QM® provides quality student health insurance programs that utilize an holistic approach to student health and athletic insurance at the collegiate level. Our programs begin with the needs of your student population. We bring together the administrative and academic departments that have a vested interest in student health and athletic insurance and guide the decision making process. The outcome gives your students access to credible health and athletic insurance that has carefully balanced the benefits and the cost.
