

ACHA SHPCCC meeting
February 17, 2021
Meeting minutes

In attendance: Blake Flaughner (he/him), Christine Kukich (she/her), John Laury (he/him), Brandy Reeves (she/her), Lizzie Finley (she/her), Camilla Herndon (she/her), Cheryl Owens (she/her), Christina Burke, Elaine Miller (she/her), Joseph Henson, Nancy Cicak, Bettina Pedone (she/her), Heather Eastman-Mueller (she/her)

- SHPCCC leadership review
 - Jordan will take over as Chair in June 2021
- Coalition purpose review
- Updates
 - New ACHA membership model—send it to people on campus
 - Discussion about who to share ACHA membership information with
 - Schools talked about being intentional about who they share membership information with—people in specific types of roles
 - Best Practices Toolkit: Coming soon!
 - Best Practices Webinar:
<https://www.youtube.com/watch?v=99TidYvHE0g&t=4s>
 - Revising Best Practices document
 - Contemplative stage—have discussed it, but haven't yet made changes
 - Health equity additions
 - New Sexual Health Services survey has been launched. Please complete the survey for your institution. For calendar year 2020. Doing 1 version for even years and another version for odd years. Some consistency throughout both documents—surveillance data on STI rates. Odd years will be asking about best practices that schools are doing (based on Best Practices document).
 - Sexual health case studies webinar on YouTube:
<https://www.youtube.com/watch?v=xxKtiHyDe18>
 - ACHA proposal: Expedited Partner Therapy (EPT)
 - John Laury, Joanne Brown, Blake Flaughner
 - Good time to promote—being underutilized according to SHS survey
- Open discussion
 - HIV testing practices and linkage to care
 - Reference group from NCHA
 - There are a series of questions...65A26, 65T26, 65W26, 65X26
https://www.acha.org/documents/ncha/ACHA-NCHA-III_Codebook_revised_12-11-2019.pdf.
 - 52.5% of all students living with HIV did not have a medical appointment in the last year (aligns with national data, but very low). HIV national plan says that people living with HIV should be linked to and retained in care.
 - 77% of students on their parent's/guardian's insurance plan did not have a medical appointment in the last year, compared with 47% of those with SHIP.
