2017-09-20 07:40:17	Other (please specify)	Director

7) What can the Nurse Directed Leadership do to improve your Professional experience in college health and higher education?

End Date

7) What can the Nurse Directed Leadership do to improve your Professional experience in college health and higher education?

2017-07-24 12:00:07	Exposure and collaboration to learn about the work being done on campuses with similar population and student demographic, perhaps mentorship.
2017-07-24 12:08:06	How we can improve contact with students. Make students aware of Student Health Services.
2017-07-24 12:11:00	It would be great to have resources and connections with other community colleges. I would love to have access to other schools or sample policy and procedure manuals.
2017-07-24 12:18:22	I would appreciate a way to connect with other nurse directors whose schools have similar enrollment numbers. Maybe a round table session where we could discuss less clinical and more processes, policy & procedure, or "How we do it" type issues. I think your suggestion of a specific topic conference call is excellent!
2017-07-24 12:30:19	Provide events for networking.
2017-07-24 12:40:06	Help keep up with law changes within my state.
2017-07-24 12:47:54	Provide support and guidance through resources online regarding college health policy changes and clinical guidelines
2017-07-24 12:55:13	Recognize and offer programming for smaller schools and community colleges that many times have no provider and are run entirely with RN only staff, and therefore require different educational sessions.
2017-07-24 13:39:26	Provide guidance and assistance in tracking data and use big data to present to senior admin. for budgeting, staffing, and policy(white papers)
2017-07-24 13:51:55	Continue to provide the support that you do, including continuing education opportunities to support our roles as well as provide the CNE (CEUs) for licensure needs. Webinars that offer approved CNE are perfect.
2017-07-24 13:52:47	Dedicated email group / dialogue
2017-07-24 13:54:43	I think that the Nurse Directed Leadership needs to access the individual roles and responsibilities of the Nurse Directors to determine the similarities and differences of the campus clinics. Some have limited roles and others have extensive roles. I think the directors need acknowledgment of what they do to promote a healthy campus. They are usually the communicators to VP's and the campus about health needs and events, they are involved in the training of clinic nurses, hiring of physician consultants, administrative duties, they sit on committees, and promote campus public relations for the health center. There are many other things they do.
2017-07-24 15:05:06	Continue keeping us up to date on upcoming medical trends and issues

2017-07-24 15:41:22	It is important for the nurses to talk with one another about their offices and operations in general, what computer systems they use etc. , in general support for one another.
2017-07-24 19:09:52	Would love some type of certification.
2017-07-24 23:22:00	Give support, organize more meetings
2017-07-25 07:06:09	More support, data based evidence of more resources in Professional Health, including staffing and budgeting.
2017-07-25 07:58:36	Explore ways to improve collaboration with faculty
2017-07-25 09:04:55	Continue to provide guidance on clinical issues.
2017-07-25 09:28:33	Staff retention
2017-07-25 09:37:10	professional development
2017-07-25 10:16:36	Working within a shared governance model with college administration and faculty
2017-07-25 14:17:46	provide some educational sections that are geared towards the small school with one nurse functioning in multiple roles : director, nurse seeing patients, travel health and health promotion. Provide information on how to "juggle" the multiple roles we are asked to fill.
2017-07-25 16:39:28	Provide information on emerging trends.
2017-07-27 09:30:46	Continue to provide educational information for college health professionals.
2017-07-31 07:53:18	Communication and webinars
2017-08-01 15:38:55	not sure
2017-08-11 07:49:47	Continue to provide me with resources and updated information on matters pertaining to college health.
2017-09-01 09:31:25	I am just now getting involved. I am not sure at this point.
2017-09-01 09:36:24	Continue to offer online forums and communication with other nurses who direct health services for their institutions.
2017-09-01 09:38:49	The smaller private schools don't always have budgets that allow for huge health education programs...learning ways to diy things would be helpful

2017-09-01 09:41:34	Provide an organized and standardized policy and procedure manual for medical clinic administrators. Including required yearly training, RN protocols, and clinician protocols(NP/PA). I understand that this may vary state to state, but broadly speaking this is what I see posted for Nurse Directed Clinics on the listserv. It would be helpful to have College Health clinic guidelines as so many of us in small college settings are put in the position of director with no real job description or outline for moving forward. We tend to be an outlier in Student Life and many times a Dean is supervising and making those types of decisions, so there is not a venue for administrative clinical guidance.
2017-09-01 10:39:11	Provide new pertinent information about college health
2017-09-01 11:10:40	Help me to integrate my clinical and administrative roles running a college health center with the mission and vision of the college as whole. Provide opportunities for professional development specific to college health clinical or administrative issues Providing guidance on administration, policy and procedure, compliance issues for small unaccredited health centers.
2017-09-01 12:00:10	Increase web-based CEU offerings
2017-09-01 12:12:40	ACHA has been wonderful resource through the years in my role as a Director. Your Meningitis management package that I received years ago really made a difference when this crisis occurred on our campus. The college health listserv continues to inform and educate our constituents. Your Statements on College Health Issues have been shared with my University. I just wish that our budget would allow attendance at the National Meetings not just the Regional meetings.
2017-09-01 12:33:17	you do a great job now. I think what might be helpful are tactics and strategies to deal with the constant budget cutting discussions we face with our VPs and Presidents. How do we become smarter at dealing with them without them knowing it?
2017-09-06 13:30:41	Mentoring would help my professional experience in the college setting.
2017-09-06 14:00:08	Best practices Protocols Disaster and emerging infectious disease preparedness templates
2017-09-07 06:45:34	Meetings or conference calls with Nurse Directed Leadership occasionally
2017-09-15 08:31:13	Educational programs/ updates
2017-09-15 08:31:53	Send links for free CME webinars.
2017-09-15 08:34:22	Wish there was one person/site to go to for questions.
2017-09-15 08:43:40	More data and information for community colleges

2017-09-15 08:44:13	I am pretty new to this role so support groups/colleague support would be great.
2017-09-15 08:57:13	Leadership education is always helpful. Also, we need to continue to compile standardized protocols that would support all of us.
2017-09-15 08:59:26	obtaining information on evidenced-based programming to improve student wellness on campus
2017-09-15 09:05:43	Address the small campus where the only staff person is a nurse who sees students clinically, collects immunization records, manages the emr, supports awareness events, and writes reports and assessments for college campuses.
2017-09-15 09:17:28	Increase listserv usage for Nurse Directors. Post emerging trends & problems and solutions. I have found that very few are on the listserv and when a question is posted only the chairperson answers. I'm not sure if this is because people are afraid to reply or are afraid that their policies & procedures lack EBR and will be criticized by others or that state rules/regs differ widely. We are tuition driven, enrollment is down, therefore, financial resources are strapped and I haven't been able to attend ant professional dev. in the last 3 years unless I paid for it. This results in occasionally being able to attend my state's college health meetings
2017-09-15 09:23:30	Keep us updated on trends in other colleges especially ones that are the same size and nurse ran.
2017-09-15 09:25:43	As a nurse-directed clinic that does not file insurance, it is increasingly difficult to give basic immunizations due to the increasingly high cost of vaccines. MMR vaccines, Tdap, and Gardasil are vaccines I can no longer give because of the cost. However, these are commonly needed vaccines among the college population. I would be grateful to the nurse-directed leadership of ACHA if they could figure out a way to address this problem on a national scale. Could there be a group purchase of vaccine? Could there be a way to work through state health departments to disseminate this vaccine to small college health centers? How can I more easily get vaccines for my patients who need them?
2017-09-15 09:43:15	Not sure
2017-09-15 11:19:50	continue to offer webinars with free continuing education credit
2017-09-15 12:15:30	promote value of nurses
2017-09-15 18:02:52	You are doing fine.
2017-09-18 08:16:55	Continued access to online education/learning opportunities

2017-09-20 07:40:17	Continue to present great information during the conferences
2017-09-20 13:24:53	Award Certification for College Nurses working in Nurse Directed College Health Centers. We don't mind using our skills-set to earn it.
2017-09-22 10:40:51	Being a resource, for questions and concerns that may be similar to other colleges or universities.

8) In what ways would you like to obtain Nurse-Directed Health Services Section communications and information about professional development opportunities? (select all that apply)

Value		Percent	Count	Percent

2017-07-24 12:48:33	Other (please specify)	VACATION ALREADY PLANNED FOR THIS DATE, BUT WILL SEND ANOTHER STAFF MEMBER
2017-07-24 12:55:13	Other (please specify)	retiring
2017-07-24 13:51:55	Other (please specify)	Traveling, conference and room expenses are a definite challenge. I am hoping to send one of my full-time nurses to Washington next summer. It would be wonderful if we both could attend; however, staffing is also an issue. My health center is open 10.5 hour days/4 days a week all summer to support the campus for summer, weekend, and evening classes as well as a number of camps for minor age students.
2017-07-24 14:17:45	Other (please specify)	Typically the meeting dates interfere with other planned events.
2017-08-11 07:49:47	Other (please specify)	I wish that I could, but my employer informed me that I can only go every other year d/t budget restraints.
2017-09-01 09:36:24	Other (please specify)	My institution supported my attendance at the 2017 meeting in Austin. Monies are not budgeted for yearly attendance
2017-09-01 09:41:34	Other (please specify)	Our budget has remained the same as we have hired on new staff, so it is difficult to make it and stay within our budget.
2017-09-01 10:08:13	Other (please specify)	Retiring
2017-09-01 11:54:52	Other (please specify)	family responsibilities
2017-09-01 12:00:10	Other (please specify)	Will be sending other staff in department
2017-09-01 12:12:40	Other (please specify)	Usually we receive budget support for the Regional meeting only.
2017-09-01 14:05:53	Other (please specify)	I am retiring June 2018 after almost 40 years in College Health
2017-09-07 06:45:34	Other (please specify)	Understaffed - can't leave
2017-09-15 08:45:33	Other (please specify)	My college does not support travel for nurse.
2017-09-15 08:57:13	Other (please specify)	Not sure if I have the budget this year and might need to send other staff.

2017-09-15 12:38:05	Other (please specify)	personal conflict with dates
2017-09-18 18:15:37	Other (please specify)	I go every other year. This is the off-year where I attend NP conference.
2017-09-22 10:40:51	Other (please specify)	office coverage / expense

11) Are you aware that several regional affiliates provide financial scholarships to attend meetings?
