Institution of Higher Education Demographic Survey**

Data from all participating institutions are aggregated for the comparative studies by various types of institutional characteristics. For that purpose, please furnish the data requested below. Because this form is used to control the processing of questionnaires, survey responses cannot be returned until this information is complete. In no instance will your institution be singled out for comparison with others in the aggregated analysis.

MOST QUESTIONS REQUIRE A RESPONSE. YOU WILL RECEIVE A MESSAGE REQUESTING YOU TO "PLEASE ANSWER THIS QUESTION" IF A REQUIRED QUESTION IS LEFT BLANK.

Section 3. Data Agreement and Signature

Data Agreement

Thank you for completing the above information and for helping us better use the ACHA-NCHA survey data in developing normative information for a variety of variables.

The ACHA-NCHA is being used across the nation to assess student health risks, beliefs, behaviors, and consequences. Each participating institution of higher education (IHE) receives a copy of its data file and reports for the purposes of analysis, research, and program planning. Additionally, each participating institution receives an aggregate report with data from all IHEs using random sampling methodologies that participated in the same survey period. The creation of this large national data file and aggregate report allows you to compare your students to a national sample. It also provides the opportunity for a greater understanding of student health, what works to reduce student health risks and consequences, and what changes can be brought about over time. In light of this opportunity, we are asking your permission to analyze, report on, and use the data collected from your students to further both our understanding of student health needs identified by the ACHA-NCHA and the ability of IHEs to meet these needs.

By typing your name below, I hereby agree to the following statement:

"I, as the ACHA-NCHA program representative at my institution, give the American College Health Association permission to analyze, report on, and otherwise use the aggregate data. I understand that all information in the aggregate data is protected and that the identity of my institution and the students who complete the ACHA-NCHA will remain confidential at all times."

Type your name below indicating you agree with the data agreement statements

Thank you for taking the time to complete this survey.
