Thank you for taking the time to complete this survey. The ACHA Sexual Health Education and Clinical Care Coalition recently updated the survey to make it as concise and easy-to-follow as possible. The objective of this survey is to track modes of management and outcomes of evaluation to serve as both a benchmark and database of comparable statistics. *Please submit only objective data except as specified. Please leave blank unanswerable questions or questions that are not applicable to your health services. Enter 0 if the answer is actually numerically zero. Do not use commas in your numerical entries. DEADLINE: June 30, 2013.*

**NOTE: PLEASE NAVIGATE WITH THE MOUSE OR PRESS THE TAB KEY AFTER EACH ENTRY. DO NOT USE THE ENTER KEY.**

*Please print this survey prior to filling out the online survey and use as a worksheet. There are three separate sections to print out. Submit the completed online survey data one time only. We also encourage you to use the current survey as a guide while tracking calendar year 2013 data.*

1) **Name of Institution:**
   
   ________________________________________________________________

2) **Name and title of respondent:**
   
   ________________________________________________________________

3) **E-mail address for questions about survey entries:**
   
   ________________________________________________________________

4) **Telephone number of respondent:**
   
   ________________________________________________________________

5) **Is your Health Center an Institutional Member of ACHA?**
   
   ☐ Yes  ☐ No  ☐ Uncertain

6) **If your Health Center is an Institutional Member of ACHA, please select your regional affiliate.**
   
   ☐ Southwest College Health Association (AR, LA, NM, OK, TX; Mexico, Central America, South America)
   ☐ Southern College Health Association (AL, FL, GA, MS, NC, PR, SC, TN, VI; Africa, Caribbean)
   ☐ North Central College Health Association (IA, MN, ND, SD, WI; Canadian members in Manitoba and Nunavut)
   ☐ Central College Health Association (KS, MO, NE)
   ☐ Rocky Mountain College Health Association (CO, MT, WY; Canadian members in Saskatchewan)
   ☐ Mid-America College Health Association (IL, IN, KY, MI; Canadian members in Ontario)
7) Institutional Control:

- Public 2-year
- Private 2-year
- Public 4-year
- Private 4-year

8) Campus Location:

- Urban >1,000,000 population
- Urban 100,000-1,000,000 population
- Urban < 100,000 population
- Suburban
- Rural
- Other (please specify)

If you selected other please specify

----------------------------------

9) Current academic year undergraduate student enrollment for your campus:

- No undergraduate students
- Under 1,000
- 1,000 to 1,999
- 2,000 to 4,999
- 5,000 to 9,999
- 10,000 to 14,999
- 15,000 to 19,999
- 20,000 to 24,999
- 25,000 to 29,999
- 30,000 to 39,999
- 40,000 +

10) Current academic year graduate and professional student enrollment for your campus:

- No graduate/professional students
- Under 1,000
- 1,000 to 1,999
- 2,000 to 4,999
- 5,000 to 9,999
- 10,000 to 14,999
- 15,000 to 19,999
- 20,000 to 24,999
- 25,000 to 29,999
- 30,000 to 39,999
- 40,000 +
11) Special institutional attributes (Check all that apply):

- Historically Black College or University (HBCU)
- Minority Postsecondary Institution (MPI)
- Hispanic Serving Institution (HSI)
- Tribal College and University (TCU)
- Alaska Native or Native Hawaiian Serving Institution (ANNH)
- Faith-based Institution
- Community College
- None listed here
- Don't Know

12) In what state is your health center located?

- AK
- AL
- AR
- AZ
- CA
- CO
- CT
- DC
- DE
- FL
- GA
- HI
- IA
- ID
- IL
- IN
- KS
- KY
- LA
- MA
- MD
- ME
- MI
- MN
- MO
- MS
- MT
- NC
- ND
- NE
- NH
- NJ
- NM
- NV
- NY
- OH
- OK
- OR
- PA
- PR
- RI
- SC
- SD
- TN
- TX
- UT
- VA
- VT
- WA
- WI
- WV
- WY
- UT
- UT

13) Which best describes your role in college health?

- Administrator
- Healthcare Provider
- Information Technology or Data Management
- Other (please specify)

If you selected other please specify

______________________________________________________________________

14) Institutional demographic information (Do not enter % sign or commas)

- Number of students enrolled at institution: ____________________________ students
- Percent female: ____________________________ percent
- Total number of student medical visits to your health center in 2012: ____________________________ visits
- Percent female visits: ____________________________ percent
- Number of student women’s health related visits to your health center in 2012: ____________________________ visits

15) What percent of women’s health visits are conducted by each of the following provider disciplines? (total should equal approximately 100%; do not enter % sign)

- Nurse (RN/LPN): ____________________________ percent
- Advanced Practice Nurse/NP: ____________________________ percent
- Physician Assistant: ____________________________ percent
- Gynecologist: ____________________________ percent
Cervical Cancer Screening

Assumptions about standard of care are based on the 2012 "ASCCP Consensus Guidelines for the Management of Women with Abnormal Cervical Cancer Screening Tests" available at the link below.

ASCCP Consensus Guidelines for the Management of Women with Abnormal Cervical Cancer Screening Tests

16) What cervical cytology screening tests does your Health Center provide? (check all that apply)

- Conventional slide cytology (Pap)
- Liquid-based cytology, with reflex HPV testing
- Liquid-based cytology, without reflex HPV testing
- None of these are offered by our health service

17) What cervical disease management modalities are provided in-house? (check all that apply)

- Colposcopy
- Laser ablation
- LEEP
- None of the above
- Other (please specify)

If you selected other please specify

18) What is your health center's standard recommendation for when to begin regular Pap testing? (check most common practice)

- Three years after first intercourse or age 21, whichever comes first
- Age 18
- Age 21
- At onset of sexual activity
- Varies by provider, no standard practice

19) Summary of all Pap test results for January 1, 2012-December 31, 2012 (Results in items Q19B through Q19J are mutually exclusive and SHOULD SUM TO EQUAL THE TOTAL REPORTED in Q19A. Question 19K is independent of diagnosis and should not be included in the sum.) Please make sure to enter data in both 19A and 19B-J below so that we can calculate correct rates for each category of test result. If you do not have paired data for both the # of tests done and the # of results, please leave this entire question blank.

A. Total number of Pap tests done ________________________________ total tests
B. Number reported as normal ________________________________ normal
C. Number reported as ASC-US
D. Number reported as ASC-H
E. Number reported as LSIL
F. Number reported as HSIL
G. Number reported as CIS
H. Number reported as AGC
I. Number reported as unsatisfactory (no dx)
J. Number reported as other dx, not listed above
K. Number reported with no endocervical cells present (with any dx above)

Note: the sum of Q19B-J should equal the total Q19A. If not, please recheck your data

20) For women under age 25, what is your health center’s usual practice for management of a first screening Pap test reported as ASC-US? (check one)

- HPV DNA test (reflex or otherwise)
- Repeat Pap in 6 months
- Repeat Pap in 12 months
- Immediate colposcopy
- Varies by provider, no standard practice

STI Testing

21) For which of the following populations does your health center offer routine screening for STIs? (Check all that apply)

- All women, upon request
- Only women at risk
- All men, upon request
- Only men at risk
- None of the above
- Symptomatic patients only
- Other

22) Does your health center routinely screen sexually active women under age 26 for chlamydia infection?

- Yes
- No

23) What type of specimen does your Health Center usually/preferentially collect for chlamydia testing in women? (check one)

- Cervical swab
- Vaginal swab
- Urine
- Varies
- None
24) What type of specimen does your Health Center usually/preferentially collect for chlamydia testing in men? (check one)

- Urethral swab
- Urine
- Varies
- None

25) Which of the following statements best describes how the cost of STI screening is covered at your health service? (check one)

- All tests/visits are charged to the patient or their insurance (there is always a cost to the patient or their insurance)
- Some tests/visits are charged but others are free (there is sometimes a cost to the patient or their insurance)
- All tests/visits are free to the student (there is never a cost to the patient or their insurance)
- None of the above or not applicable
- Other (please specify)

If you selected other please specify

______________________________________________________________________

STI TEST RESULTS

Instructions: Please make sure to enter corresponding data in questions 26-31 below so that we can calculate positivity rates by gender. If you do not collect data by gender, please report totals in the “unknown” category for each section. If you do not have paired data for both # tests done and # positive, please leave these questions blank. Do not enter zero unless the answer is numerically zero. All data applies to tests performed by your health service in calendar year 2012.

26) Number of Gonorrhea tests performed, by gender

a. Females  ___________________________________number
b. Males  ___________________________________number
c. Unknown/unspecified gender  ___________________________________number

27) Number of Gonorrhea tests positive, by gender

a. Females  ___________________________________number
b. Males  ___________________________________number
c. Unknown/unspecified gender  ___________________________________number

28) Number of Chlamydia tests performed, by gender

a. Females  ___________________________________number
b. Males  ___________________________________number
c. Unknown/unspecified gender  ___________________________________number

29) Number of Chlamydia tests positive, by gender

a. Females  ___________________________________number
b. Males  ___________________________________number
c. Unknown/unspecified gender  ___________________________________number
30) HIV antibody tests performed, by gender
   a. Females ___________________________________ number
   b. Males ___________________________________ number
   c. Unknown/unspecified gender ________________ number

31) HIV antibody tests positive (Western blot confirmed), by gender
   a. Females ___________________________________ number
   b. Males ___________________________________ number
   c. Unknown/unspecified gender ________________ number
   d. Number of these positive tests (subset of 30 b) that occurred in men who have sex with men, if known (otherwise leave blank). ________________ number

32) Does your Health Center offer HIV antibody tests that are:
   ○ Anonymous
   ○ Confidential
   ○ Both
   ○ HIV tests are not offered

33) What types of HIV antibody tests does your Health Center offer? (check all that apply)
   ○ Standard test, blood
   ○ Standard test, oral fluid
   ○ Rapid test, blood
   ○ Rapid test, oral fluid
   ○ None
   ○ Other (please specify) ______________________________________________________________________

34) Which specific HIV assays are available for screening or diagnostic testing in your health service? (check all that apply)
   ○ HIV 1/2 antibody test
   ○ HIV p24 antigen/HIV antibody combo test
   ○ HIV pDNA or RNA test qualitative “PCR” test
   ○ HIV RNA quantitative/viral load test
   ○ None
   ○ Other (please specify) ______________________________________________________________________

35) What type of syphilis test does your Health Center use for routine screening? (check one)
   ○ RPR
   ○ VDRL
   ○ EIA
36) Syphilis tests performed in 2012

Total number of tests performed ___________________________________ number
Total number positive (TP-PA/FTA confirmed) ___________________________________ number
Number positive that occurred in men who have sex with men, if known (otherwise leave blank) ___________________________________ number

37) What laboratory tests does your Health Center use to diagnose genital herpes infection? (check all that apply):

- Viral culture
- PCR
- Type specific serology (antibody testing)
- Antigen tests
- Tzank smears
- Other (please specify)

If you selected other please specify
______________________________________________________________________

38) Herpes viral culture or PCR tests performed in 2012 (genital sites only):

Total number of herpes viral culture or PCR tests done ___________________________________ number
Total number positive for HSV-2 ___________________________________ number
Total number positive for HSV-1 ___________________________________ number
Total number positive type unknown ___________________________________ number

If available by gender, (otherwise leave blank)

39) Herpes viral culture or PCR tests performed in 2012 for women (genital sites only):

Number of herpes viral culture or PCR tests done ___________________________________ number
Number positive for HSV-2 ___________________________________ number
Number positive for HSV-1 ___________________________________ number
Number positive type unknown ___________________________________ number

40) Herpes viral culture or PCR tests performed in 2012 for men (genital sites only):

Number of herpes viral culture or PCR tests done ___________________________________ number
Number positive for HSV-2 ___________________________________ number
Number positive for HSV-1 ___________________________________ number
Number positive type unknown ___________________________________ number

41) What type of test(s) does your Health Center use for the diagnosis of trichomoniasis infection in women? (check all that apply)

- Microscopy (wet prep)
- Culture
- Antigen detection (e.g. OSOM or Affirm)
- PCR or other NAAT (e.g. APTIMA or Amplicor)
42) How many patients did your Health Center diagnose with trichomoniasis in 2012?

____________________________________________________________  number

43) How many patients did your Health Center diagnose with bacterial vaginosis in 2012?

____________________________________________________________  number

44) Number of unduplicated patients diagnosed with genital warts in 2012:

Number of female PATIENTS  ___________________________________  number
Number of male PATIENTS  ___________________________________  number
Number of unspecified PATIENTS  ___________________________________  number

45) Number of total clinic visits for treatment of genital warts in 2012:

Number of female VISITS  ___________________________________  number
Number of male VISITS  ___________________________________  number
Number of unspecified VISITS  ___________________________________  number

46) Does your health center provide anal cytology screening for any of the following individuals? Check all that apply.

☐ Women
☐ Men
☐ None, we don’t perform anal cytology at our health center
☐ I don’t know

47) If yes, number of anal cytology tests performed in 2012:

Number of females  ___________________________________  number
Number of males  ___________________________________  number

48) How many DOSSES of HPV vaccine were administered by your health center in 2012?

Total Number  ___________________________________  number
Number female  ___________________________________  number
Number male  ___________________________________  number

49) How many individual (unduplicated) STUDENTS received HPV vaccine from your health center in 2012?

Total Number  ___________________________________  number
Number female  ___________________________________  number
Number male  ___________________________________  number

50) Does your health center include pharyngeal and rectal tests for gonorrhea when screening MSM for STIs?

☐ Yes
☐ No
☐ Male screening is not performed at our health center

51) Does your health center include rectal testing for chlamydia when screening MSM for STIs?

☐ Yes
☐ No
☐ Male screening is not performed at our health center
52) In the state in which your health center is located, is expedited partner therapy (EPT) legal for treatment of STIs?

- EPT is legal for at least one STI
- EPT is of uncertain legality
- EPT is not legal for any STI
- I don’t know

53) Does your health center’s policy permit providers to provide expedited partner therapy (EPT) for treatment of any of the following STIs? (Check all that apply)

- EPT is not permitted for any STI
- Chlamydia
- Gonorrhea
- Trichomoniasis
- I don’t know
- Other (please specify)

If you selected other please specify

54) Which of the following best describes your health center’s use of EPT?

- EPT is used by our providers
- EPT is not used by our providers
- I don’t know

---

**Contraception Services/ Pregnancy Testing**

Which of the following contraception services does your health center provide to students? (check all that apply)

55) Education

- General family planning or contraception
- Fertility awareness methods
- Emergency Contraception
- Abstinence

56) Dispensation

- Oral contraceptives
- Contraceptive Ring
- Contraceptive Patch
- Insertion of intrauterine devices/systems (IUDs)
- Administration of injectable contraception (e.g., Depo-Provera)
- Administration/insertion of intradermal contraception (e.g., Implanon)
- Dispensation, prescription, or sale of emergency contraception
- If yes, check if EC is available in vending machines on your campus
57) **Safer Sex Methods**

<table>

</tbody>
</table>

58) **Prescription**

- ☐ Oral contraceptives
- ☐ Prescription or dispensing of other hormonal contraception (transdermal patch, intravaginal ring, etc)
- ☐ Prescription or dispensing of other barrier methods (e.g., diaphragm, cervical cap, sponge)
- ☐ Performance of sterilization procedures (i.e., vasectomies, tubal ligation, implants (Essure)
- ☐ None, no contraception services are provided on site

59) **If none of the above, does your health center refer to outside providers (family planning clinic, local physician, etc.) for some or all services?**

- ☐ Yes
- ☐ No
- ☐ I don’t know

60) **Does your Health Center offer pregnancy testing? (choose one that applies to most/all tests)**

- ☐ Yes, provider performed (in-house)
- ☐ Yes, laboratory performed (in-house or sent out)
- ☐ No, not offered, referred elsewhere

61) **For pregnancy tests performed at your health center between January 1, 2012 to December 31, 2012 (in-house or sent out, either urine or blood):**

<p>| | |</p>
<table>

62) **For students with a positive pregnancy test, what services are available from your health center? (check all that apply)**

- ☐ “All options” counseling and education
- ☐ Limited counseling and education
- ☐ Referral for adoption services
- ☐ Referral for abortion services
- ☐ Referral for prenatal care
- ☐ Prenatal care services provided on-site
- ☐ Medical abortion services provided on-site
- ☐ No services are provided
These last questions refer to your health center's participation in national STD Awareness Month activities last April.

63) Did your health center experience an increase in STI testing clients seen at your health service in April 2012? (compared to previous months or years)

- Yes
- No
- Unknown

64) Did your health center participate in the 2012 GYT “Get Yourself Tested” campaign?

- Yes
- No
- Unknown

65) Did your health center offer any free/reduced cost STI/HIV testing in April 2012?

- Yes
- No
- Unknown

Contact Heather Eastman-Mueller, Ph.D., CHES for specific questions at the following e-mail address: eastmanmuellerh@health.missouri.edu.

Thank you for taking the time to complete this survey. Once the survey closes, data will be compiled and sent to the email address provided here in the survey. The results will subsequently be posted on the ACHA website.
