ACHA Well-Being Assessment

This questionnaire asks you about your wellbeing and is completely voluntary. The results will be used to inform programs and policies at your school. Nobody will ever associate your answers with your identity, and all responses are confidential. When you hit the "Submit Survey" button on the last page of the survey, the link between your email address and your survey responses is destroyed.

Please try to answer each question as best you can. If, however, you would prefer not to answer a particular question, just leave it blank and go on to the next. You may complete the survey in multiple sessions. This survey link is unique to you. You may begin the survey on one device and continue where you left off on another device.

Your safety and Well-Being are important to us. If you are feeling overwhelmed at any point, pay attention to your needs. If you would like to talk with someone about the issues addressed in this survey, you are encouraged to reach out to the campus contact or local resources identified in your survey invitation or to contact one of these [additional resources](#).

By clicking the 'Begin Survey' button below, you agree that:

- the purpose of this study has been thoroughly explained to you;
- you are at least 18 years of age;
- and you consent to participate in the survey.
