Reference Group Data Report

Spring 2001

American College Health Association National College Health Assessment

ACHA-NCHA

The ACHA-NCHA supports the health of the campus community by fulfilling theacademic mission, supporting short- and long-term healthy behaviors, and gaining a current profile of health trends within the campus community.

Demographics of Participating Colleges/Universities

Thirty-two US postsecondary institutions self-selected to participate in the Spring 2001 National College Health Assessment and 17,308 surveys were completed by students on these campuses. For the purpose of this study, only those institutions that used a random sampling technique will be included in the analysis, yielding a final data set consisting of 16,813 students on 31 campuses. Demographic characteristics of the 31 campuses follow:

| Public | 23 |
|---------|----|
| Private | 8 |

| 4-year | 26 |
|--------|----|
| 2-year | 5 |

| ACHA Member Institution | 30 |
