Demographics of Participating Colleges/Universities

Forty-seven US postsecondary institutions self-selected to participate in the Spring 2002 National College Health Assessment and 30,639 surveys were completed by students on these campuses. For the purpose of this study, only those institutions that used a random sampling technique will be included in the analysis, yielding a final data set consisting of 28,258 students on 44 capmuses. Demographic characteristics of the 44 campuses follow:

Public	35
Private	9

4-year	42
2-year	2

ACHA Member Institution	40
Non-member Institution	4

Carnegie Classification	
Doctoral/Research Universities	23
Extensive	
Doctoral /Research Universities	4
