

GRADUATE/PROFESSIONAL STUDENT Reference Group

Executive Summary

Fall 2019

The ACHA-NCHA II supports the health of the campus community by fulfilling the academic mission, supporting short- and long-term healthy behaviors, and gaining a current profile of health trends within the campus community.

American College Health Association. American College Health Association-National College Health Assessment III: Graduate/Professional Student Executive Summary Fall 2019. Silver Spring, MD: American College Health Association; 2020.

Introduction and Notes

The ACHA-National College Health Assessment (ACHA-NCHA) is a national research survey organized by the American College Health Association (ACHA) to assist college health service providers, health educators, counselors, and administrators in collecting data about their students' habits and behaviors on the most prevalent health topics. The ACHA-NCHA now provides the largest known comprehensive data set on the health of college students, providing the college health and higher education fields with a vast spectrum of information on student health.

ACHA initiated the original ACHA-NCHA in 2000 and the instrument was used nationwide through the Spring 2008 data collection period. A revised survey, the ACHA-NCHA-II, was in use from Fall 2008 - Spring 2019 data collection periods. The survey was redesigned again, and data collection with the ACHA-NCHA III began in Fall 2019.

Please note that it is not appropriate to compare trends between versions of the survey. Directly comparing data points between the Original ACHA-NCHA, the ACHA-NCHA II, and the ACHA-NCHA III can lead to an erroneous conclusions and is not recommended.

Notes about this report:

- 1. Missing values have been excluded from analysis and only valid percents are included in this document, unless otherwise noted
- 2. The ACHA-NCHA III is programmed differently than earlier versions of the survey. Rather than asking the respondents to answer every question (and offering a "not applicable" option), display logic was used throughout the survey to determine whether, based on their response to an earlier question, the student saw a follow-up question. This makes the valid percents of certain questions impossible to apply to the entire sample, as the denominator used was limited to only the number of students that saw the question. When appropriate, results are also presented using the entire sample as the denominator to show the proportion of the overall sample that experienced a particular issue. These differences in presentation are carefully noted throughout the document and will often explain differences observed between this document and the full data report. Please look carefully at descriptions of the data presented in each table, as well as any footnotes included.
- 3. About the use of sex and gender in this report: Survey responses are reported by sex based on the responses to questions 67A, 67B, and 67C. For the purpose of the ACHA-NCHA report documents, respondents are reported as male or female only when their responses to these three questions are consistent with one another. If gender identity is consistent with sex at birth AND "no" is selected for transgender, then respondents are designated as either male or female. If respondents select "yes" for transgender OR their sex at birth is not consistent with their gender identity, then they are designated as non-binary. A respondent that selects "intersex" for sex at birth, "no" for transgender, and man or woman for gender identity are designated as male or female. A respondent that selects "intersex" for sex at birth, "yes" for transgender, or selects a gender identity other than man or woman are designated as non-binary. A respondent that skips any of the three questions is designated as unknown. Totals displayed in this report include non-binary and unknown responses.

For additional information about the survey's development, design, and methodology, email Mary T Hoban, PhD, MCHES, (mhoban@acha.org), Christine Kukich, MS (ckukich@acha.org), or visit www.acha-ncha.org.

This Executive Summary highlights results of the ACHA-NCHA III Fall 2019 survey for Graduate/Professional Student Reference Group consisting of 7766 respondents.

Findings

A. General Health and Campus Climate

- 60.3 % of college students surveyed (65.9 % male and 57.3 % female) described their health as *very good or excellent.*
- 92.1 % of college students surveyed (93.3 % male and 91.6 % female) described their health as *good*, *very good or excellent*.

Proportion of college students who reported they agree or strongly agree that:

| Percent (%) | Male | Female | Total |
|--|------|--------|-------|
| I feel that I belong at my college/university | 73.8 | 68.3 | 70.1 |
| I feel that students' health and well-being is a priority at my college/university | 60.5 | 53.3 | 55.7 |
| At my college/university, I feel that the campus climate encourages free and open | | | |
| discussion of students' health and well-being. | 60.1 | 55.5 | 56.9 |
| At my college/university, we are a campus where we look out for each other | 55.6 | 49.9 | 51.9 |

B. Nutrition, BMI, Physical Activity, and Food Security

College students reported:

| Percent (%) | Male | Female | Total |
|--|------|--------|-------|
| Drinking 0 sugar-sweetened beverages (per day), on average, in the last 7 days | 40.9 | 42.2 | 41.6 |
| Drinking 1 or more sugar-sweetened beverages (per day), on average, in the last 7 days | 59.1 | 57.8 | 58.4 |
| Drinking energy drinks or shots on 0 of the past 30 days | 78.7 | 88.9 | 84.7 |
| Drinking energy drinks or shots on 1-4 of the past 30 days | 13.1 | 7.4 | 9.7 |
| Drinking energy drinks or shots on 5 or more of the past 30 days | 8.2 | 3.7 | 5.6 |
| Eating 3 or more servings of fruits (per day), on average, in the last 7 days | 17.0 | 18.1 | 17.7 |
| Eating 3 or more servings of vegetables (per day), on average, in the last 7 days | 33.7 | 38.0 | 36.2 |

■ Estimated Body Mass Index (BMI): This figure incorporates reported height and weight to form a general indicator of physical health. Categories defined by The World Health Organization (WHO) 2000, reprinted 2004. Obesity: Preventing and Managing the Global Epidemic. WHO Tech Report Series: 894.

| BMI Percent (%) | Male | Female | Total |
|--------------------------|-------|--------|-------|
| <18.5 Underweight | 2.7 | 4.5 | 3.8 |
| 18.5-24.9 Healthy Weight | 49.0 | 55.7 | 53.0 |
| 25-29.9 Overweight | 34.1 | 22.5 | 27.1 |
| 30-34.9 Class I Obesity | 9.7 | 9.7 | 9.6 |
| 35-39.9 Class II Obesity | 2.8 | 4.4 | 3.8 |
| ≥40 Class III Obesity | 1.7 | 3.2 | 2.7 |
| | | | |
| Mean | 25.55 | 25.32 | 25.43 |
| Median | 24.81 | 23.70 | 24.25 |
| Std Dev | 4.91 | 6.22 | 5.77 |

Students meeting the recommended guidelines for physical activity

Based on: US Dept of Health and Human Services. *Physical Activities Guidelines for Americans*, 2nd edition. Washington, DC: US Dept of Health and Human Services; 2018

Definitions:

- Recommendation for **aerobic activity**: 150 minutes or more of moderate-intensity physical activity per week or 75 minutes of vigorous-intensity physical activity or the equivalent combination
- Recommendation for **strength training**: 2 or more days a week of moderate or greater intensity activities that involve all major muscle groups
- Active Adults meet the recommendation for strength training AND aerobic activity
- *Highly Active Adults* meet the recommendation for strength training and TWICE the recommendation for aerobic activity (300 minutes or more of moderate-intensity physical activity per week or 150 minutes of vigorous-intensity physical activity or the equivalent combination)

| Percent (%) | Male | Female | Total |
|--|------|--------|-------|
| Guidelines met for aerobic exercise only | 72.7 | 65.4 | 68.4 |
| Guidelines met for Active Adults | 45.5 | 34.3 | 38.7 |
| Guidelines met for Highly Active Adults | 37.3 | 26.7 | 30.8 |

Food Security

Based on responses to the US Household Food Security Survey Module: Six-Item Short Form (2012) from the USDA Economic Research Service.

| | Percent (%) | Male | Female | Total |
|---|-------------|------|--------|-------|
| High or marginal food security (score 0-1) | | 66.7 | 66.6 | 66.1 |
| Low food security (score 2-4) | | 18.6 | 20.4 | 19.8 |
| Very low food security (score 5-6) | | 14.8 | 13.0 | 14.1 |
| | | | | |
| Any food insecurity (low or very low food security) | | 33.3 | 33.4 | 33.9 |

C. Health Care Utilization

College students reported:

| Percent (%) | Male | Female | Total |
|-------------|-------------|----------------------|--|
| | 19.1 | 33.3 | 28.3 |
| | | | |
| | 58.5 | 49.4 | 52.1 |
| | 26.8 | 36.0 | 33.9 |
| | 28.2 | 32.2 | 31.3 |
| | 7.3 | 8.1 | 7.8 |
| | Percent (%) | 19.1 58.5 26.8 | 19.1 33.3 58.5 49.4 26.8 36.0 28.2 32.2 |

^{*}Only students who reported receiving care in the last 12 months were asked these questions

| | Percent (%) | Male | Female | Total |
|--|-------------|------|--------|-------|
| Visiting a medical provider within the last 12 months | | 63.3 | 81.7 | 74.4 |
| *The services were provided by: | | | | |
| My current campus health center | | 52.8 | 44.8 | 47.6 |
| A medical service provider in the local community near my campus | | 30.1 | 36.1 | 34.3 |
| A mental service provider in my home town | | 48.6 | 54.5 | 52.3 |
| A mental service provider not described above | | 8.2 | 6.5 | 7.1 |

^{*}Only students who reported receiving care in the last 12 months were asked these questions

College students reported:

| Percent (%) | Male | Female | Total |
|--|------|--------|-------|
| Flu vaccine within the last 12 month | 51.7 | 58.9 | 56.1 |
| Not starting the HPV vaccine series | 47.0 | 32.4 | 38.0 |
| Starting, but not completing HPV vaccine series | 3.8 | 6.7 | 5.6 |
| Completing HPV vaccine series | 24.7 | 53.0 | 41.9 |
| Not knowing their HPV vaccine status | 24.5 | 7.9 | 14.5 |
| Ever having a GYN visit or exam (females only) | | 72.9 | |
| Having a dental exam in the last 12 months | 59.4 | 69.3 | 65.1 |
| Being tested for HIV within the last 12 months | 16.8 | 22.1 | 20.2 |
| Being tested for HIV more than 12 months ago | 19.1 | 24.1 | 22.3 |
| Wearing sunscreen usually or always when outdoors | 22.5 | 47.6 | 37.5 |
| Spending time outdoors with the intention of tanning at least once in the last 12 months | 30.6 | 46.2 | 39.6 |

D. Impediments to Academic Performance

Respondents are asked in numerous places throughout the survey about issues that might have negatively impacted their academic performance within the last 12 months. This is defined as negatively impacting their performance in a class or delaying progress towards their degree. Both types of negative impacts are represented in the figures below. Please refer to the corresponding Data Report for specific figures on each type of impact. Figures in the left columns use all students in the sample as the denominator. Figures in the right columns use only the students that experienced that issue (e.g. students who used cannabis, reported a problem or challenge with finances, or experienced a particular health issue) in the denominator. (items are listed in the order in which they appear in the survey)

| | Negatively impacted Negatively impacted academic performance academic performance among all students in the sample experienced the is | | | nance its that | | |
|---|---|--------|-------|-------------------|--------|-------|
| Percent (%) | Male | Female | Total | Male | Female | Total |
| Alcohol use | 2.0 | 1.0 | 1.4 | 2.4 | 1.2 | 1.7 |
| Cannabis/marijuana use | 0.6 | 0.3 | 0.5 | 2.8 | 1.2 | 2.1 |
| Problems or challenges in the last 12 months | | | | | | |

E. Violence, Abusive Relationships, and Personal Safety

Within the last 12 months, college students reported experiencing:

| Percent (%) | Male | Female | Total |
|---|------|--------|-------|
| A physical fight | 1.9 | 0.8 | 1.3 |
| A physical assault (not sexual assault) | 1.8 | 1.2 | 1.6 |
| A verbal threat | 8.4 | 7.1 | 7.8 |
| Sexual touching without their consent | 2.0 | 4.7 | 3.8 |
| Sexual penetration attempt without their consent | 0.7 | 1.4 | 1.2 |
| Sexual penetration without their consent | 0.6 | 1.0 | 0.9 |
| Being a victim of stalking | 1.5 | 3.2 | 2.6 |
| A partner called me names, insulted me, or put me down to make me feel bad | 10.1 | 10.1 | 10.1 |
| A partner often insisted on knowing who I was with and where I was or tried to limit my | | | |
| contact with family or friends | 5.3 | 4.1 | 4.6 |
| A partner pushed, grabbed, shoved, slapped, kicked, bit, choked or hit me without my | | | |
| consent | 2.5 | 1.8 | 2.2 |
| A partner forced me into unwanted sexual contact by holding me down or hurting me in | | | |
| some way | 0.7 | 1.0 | 0.9 |
| A partner pressured me into unwanted sexual contact by threatening me, coercing me, or | · | | |
| using alcohol or other drugs | 1.2 | 1.6 | 1.5 |

College students reported feeling *very safe*:

| Percent (%) | Male | Female | Total |
|---|------|--------|-------|
| On their campus (daytime) | 87.5 | 80.5 | 83.2 |
| On their campus (nighttime) | 55.7 | 25.8 | 37.5 |
| In the community surrounding their campus (daytime) | 60.4 | 47.7 | 52.6 |
| In the community surrounding their campus (nighttime) | 31.4 | 13.6 | 20.6 |

F. Tobacco, Alcohol, and Other Drug Use

| | Ever Used | | *Used in the last 3 m | | months | |
|--|-----------|--------|-----------------------|------|--------|-------|
| Percent (%) | Male | Female | Total | Male | Female | Total |
| Tobacco or nicotine delivery products (cigarettes, e- | | | | | | |
| cigarettes, Juul or other vape products, water pipe or | | | | | | |
| hookah, chewing tobacco, cigars, etc.) | 41.2 | 31.0 | 35.4 | 21.3 | 12.6 | 16.3 |
| Alcoholic beverages (beer, wine, liquor, etc.) | 77.6 | 82.8 | 80.7 | 72.1 | 78.4 | 75.8 |

| tudents were instructed to include medical and non-medical use o | f cannabis. | | | - | | | |

Driving under the influence

- 23.9 % of college students reported driving after having *any alcohol* in the last 30 days.* *Only students who reported driving in the last 30 days and drinking alcohol in the last 30 days were asked this question.
- 32.1 % of college students reported driving within 6 hours of using cannabis/marijuana in the last 30 days.* *Only students who reported driving in the last 30 days and using cannabis in the last 30 days were asked this question.

Estimated Blood Alcohol Concentration (or eBAC) of college students. Due to the improbability of a student surviving a drinking episode resulting in an extremely high eBAC, all students with an eBAC of 0.50 or higher are also omitted from these eBAC figures. eBAC is an estimated figure based on the reported number of drinks consumed during the last time they drank alcohol in a social setting, their approximate time of consumption, sex, weight, and the average rate of ethanol metabolism. Only students who reported drinking alcohol within the last 3 months answered these questions.

| Estimated BAC | Percent (%) | Male | Female | Total |
|---------------|-------------|------|--------|-------|
| <.08 | | 91.2 | 88.9 | 89.8 |
| < .10 | | 94.5 | 92.8 | 93.4 |

| | | | | |
| Mean | | 2.1 | 1.6 | 1.8 |
| Median | | 1.0 | 1.0 | 1.0 |
| Std Dev | | 4.6 | 1.8 | 3.2 |

^{*}Only students who reported having oral sex, or vaginal or anal intercourse in the last 12 months were asked this question.

College students who reported having oral sex, or vaginal or anal intercourse within the last 30 days who reported using a condom or another protective barrier *most of the time* or *always*:

| | Percent (%) | Male | Female | Total |
|---------------------|-------------|------|--------|-------|
| Oral sex | | 5.4 | 3.8 | 4.6 |
| Vaginal intercourse | | 37.7 | 33.8 | 35.1 |
| Anal intercourse | | 30.8 | 18.8 | 26.7 |

^{*}Only students who reported having oral sex, or vaginal or anal intercourse in the last 30 days were asked these questions.

College students who reported having vaginal intercourse (penis in vagina) within the last 12 months were asked if they or their partner used any method to prevent pregnancy the <u>last time</u> they had vaginal intercourse:

| | Percent (%) | Male | Female | Total |
|---------------------------------------|-------------|------|--------|-------|
| Yes, used a method of contraception | | 77.4 | 82.8 | 80.7 |
| No, did not want to prevent pregnancy | | 7.2 | 4.9 | 5.8 |
| No, did not use any method | | 13.4 | 12.0 | 12.5 |
| Don't know | | 2.0 | 0.3 | 1.0 |

^{*}Only students who reported having oral sex, or vaginal or anal intercourse in the last 12 months were asked this question.

*Those students who reported using a contraceptive use the last time they had vaginal intercourse, reported they (or their partner) used the following methods:

| Percent (%) | Male | Female | Total |
|--|------|--------|-------|
| Birth control pills (monthly or extended cycle) | 37.7 | 38.7 | 37.9 |
| Birth control shots | 1.6 | 1.2 | 1.4 |
| Birth control implants | 6.8 | 5.5 | 6.0 |
| Birth control patch | 0.7 | 0.9 | 0.8 |
| The ring | 2.0 | 3.1 | 2.8 |
| Emergency contraception ("morning after pill" or "Plan B") | 2.5 | 2.3 | 2.3 |
| Intrauterine device | 14.5 | 21.2 | 18.9 |
| Male (external) condom | 51.4 | 40.8 | 44.5 |
| Female (internal) condom | 0.5 | 0.2 | 0.3 |
| Diaphragm or cervical cap | 0.3 | 0.1 | 0.2 |
| Contraceptive sponge | 0.1 | 0.1 | 0.1 |
| Withdrawal | 13.9 | 18.0 | 16.4 |
| Fertility awareness (calendar, mucous, basal body temperature) | 2.1 | 3.9 | 3.3 |
| Sterilization (hysterectomy, tubes tied, vasectomy) | 3.3 | 3.6 | 3.6 |
| Other method | 1.3 | 0.9 | 1.1 |
| | | | |
| Male condom use plus another method | 23.2 | 23.2 | 23.2 |
| Any two or more methods (excluding male condoms) | 12.7 | 15.7 | 14.6 |

^{*}Only students who reported they or their partner used a method the last time they had vaginal intercourse were asked these questions.

College students who reported having vaginal intercourse (penis in vagina) within the last 12 months were asked if they or their partner used emergency contraception ("morning after pill" or "Plan B") in the last 12 months:

Yes (male: 8.3 %; female: 11.1 %).

College students who reported having vaginal intercourse (penis in vagina) within the last 12 months were asked if they experienced an unintentional pregnancy or got someone pregnant within the last 12 months:

Yes (male: 1 %; female: 1.2 %).

H. Mental Health and Wellbeing

Kessler 6 (K6) Non-Specific Psychological Distress Score (Range is 0-24)*

| | Percent (%) | Male | Female | Total |
|---|-------------|------|--------|-------|
| No or low psychological distress (0-12) | | 89.3 | 87.1 | 87.6 |
| Serious psychological distress (13-24) | | 10.7 | 12.9 | 12.4 |

^{*}ACHA discontinued the practice of reporting moderate psychological distress in fall 2023 due to lack of consensus on an appropriate cut off score. Instead, we recommend reporting only students who screen positive (or negative) for serious psychological distress as indicated above. All reference group reports were updated to reflect this change.

| Mean | 6.45 | 6.92 | 6.79 |
|---------|------|------|------|

| Urinary tract infection | 1.1 | 12.0 | 7.7 |

J. Ongoing or Chronic Conditions

The questions for the *ongoing or chronic conditions* are presented differently in this report than the order they appear in the survey. In the survey, all items appear in a single list, ordered alphabetically. In this report, the conditions are presented in groups to ease burden on the reader. The findings are divided into mental health conditions, STIs and other chronic infections, and other ongoing or chronic conditions in this report.

*Of those ever diagnosed,

^{*}Only students who reported ever being diagnosed were asked about contact with a healthcare or mental health professional within the last 12 months.

^{*}Only students who reported ever being diagnosed were asked about contact with a healthcare or mental health professional within the last 12 months.

Students who reported being diagnosed with diabetes or pre-diabetes/insulin resistance, indicated they had:

| | Percent (%) | Male | Female | Total |
|------------------------------------|-------------|------|--------|-------|
| Type I Diabetes | | 29.3 | 19.0 | 22.9 |
| Type II Diabetes | | 49.2 | 30.8 | 35.8 |
| Pre-diabetes or insulin resistance | | 43.1 | 62.7 | 57.1 |
| Gestational Diabetes | | 3.7 | 12.2 | 9.9 |

K. Sleep

Reported amount of time to usually fall asleep at night (sleep onset latency):

| Percer | nt (%) | Male | Female | Total |
|----------------------|--------|------|--------|-------|
| Less than 15 minutes | | 54.6 | 49.3 | 51.2 |
| 16 to 30 minutes | | 24.7 | 26.7 | 25.9 |
| 31 minutes or more | | 20.6 | 24.0 | 22.9 |

Over the last 2 weeks, students reported the following average amount of sleep (excluding naps):

| | | On weeknights | | | |
|-------------------|-------------|---------------|--------|-------|--|
| | Percent (%) | Male | Female | Total | |
| Less than 7 hours | | 46.5 | 43.0 | 44.4 | |
| 7 to 9 hours | | 53.0 | 56.1 | 54.8 | |
| 10 or more hours | | 0.6 | 0.9 | 0.8 | |

| On weekend nights | | | | | |
|-------------------|----|--------|-------|--|--|
| Male | | Female | Total | | |
| 20 | .3 | 17.0 | 18.4 | | |
| 75 | .4 | 77.2 | 76.3 | | |
| 4 | .4 | 5.8 | 5.3 | | |

Students reported the following on 3 or more of the last 7 days:

| | | | Felt tired or sleepy during the day | | | |
|------------------------|--|------|--|------|--|--|
| Percent (%) Male Femal | | | | | | |
| 0 days | | 8.1 | 3.8 | 5.5 | | |

Demographics of Participating Institutions

Sixty-seven postsecondary institutions self-selected to participate in the Fall 2019 ACHA National College Health Assessment and 43,140 surveys were completed by students on these campuses. For the purpose of forming the Reference Group, only institutions located in the United States that surveyed all students or used a random sampling technique, and used the NCHA III (currently only offered as a web survey) are included in the analysis, yielding a final data set consisting of 38,679 students at 58 schools. This report includes only data from 7,766 GRADUATE and PROFESSIONAL students at 39 schools. Demographic characteristics of the 39 campuses follow.
