

GRADUATE/PROFESSIONAL STUDENT Reference Group

Data Report

Spring 2025

The ACHA-NCHA III supports the health of the campus community by fulfilling the academic mission, supporting short- and long-term healthy behaviors, and gaining a current profile of health trends within the campus community.

AMERICAN COLLEGE HEALTH ASSOCIATION

Demographics of Participating Institutions

One hundred and six postsecondary institutions self-selected to participate in the Spring 2025 ACHA National College Health Assessment and 70,859 surveys were completed by students on these campuses. For the purpose of forming the Reference Group, only institutions located in the United States that surveyed all students or used a random sampling technique, and used the ACHA-NCHA III (currently only offered as a web survey) are included in the analysis, yielding a final data set consisting of 65,950 students at 97 schools. **This report includes only data from 17,167 GRADUATE AND PROFESSIONAL students at 81 schools.** Demographic characteristics of the 81 campuses follow.

Demographic Characteristics of the 81 US Postsecondary Institutions Included in the Spring 2025 ACHA-NCHA III GRADUATE AND PROFESSIONAL Reference Group	
Campus Characteristic (from 2023 Dept. of Education IPEDS data files)	<i>n</i>
Type of Institution	
Public	59
Private	22
2-year	5
4-year or above	76
Location of Campus	
Northeast (CT, ME, MA, NH, NJ, NY, PA, RI, VT)	16
Midwest (IL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, WI)	14
South (AL, AR, DE, DC, FL, GA, KY, LA, MD, MS, NC, OK, SC, TN, TX, VA, WV)	17
West (AK, AZ, CA, CO, HI, ID, MT, NV, NM, OR, UT, WA, WY)	34
Campus Size	
< 2,500 students	8
2,500 – 4,999 students	10
5,000 – 9,999 students	15
10,000 – 19,999 students	15
20,000 students or more	33

Masters Colleges and Universities	17
Doctoral Universities	48
Special Focus Institutions	2
Miscellaneous	0

Demographic Characteristics of the 96 US Postsecondary Institutions Included in the Spring 2025 ACHA-NCHA III UNDERGRADUATE Reference Group	
Campus Characteristic (from 2023 Dept. of Education IPEDS data files)	<i>n</i>
ACHA Membership Status Institutional Member Nonmember	70 11
Religious Affiliation No Yes	74 7
Postsecondary Minority Institution (US Department of Education) No Yes *If yes: Historically Black College or University (HBCU) Hispanic-serving Institution (HSI) Tribal College or University Predominately Black Institution Asian American and Native American Pacific Islander-serving Alaska Native-serving or Native Hawaiian-serving Institution Native American-serving Nontribal Institution *institutions may hold more than one type of minority status NOTE: In an effort to protect the identity of the participating institutions, the minority institution status variables have been recoded into a single dichotomous (yes/no) variable in the Reference Group SPSS data files. Secondary researchers with access to the blind data files will not be able to ascertain which type of minority status designation an institution holds.	61 20 3 12 1 0 10 0 1

GRADUATE & PROFESSIONAL	Spring 2025 Institutions
Number of institutions	81
Number of students	17,167
Mean response proportion*	11%
Median response proportion*	9%

*Calculation of response proportion is based all students surveyed at the institution and not limited to only graduate student responses.

Notes about the use of sex and gender in this report

RSEX variable

Survey results are reported by sex based on the responses to questions 67A, 67B, and 67C. The responses to these questions are used to create a new variable called RSEX. RSEX is used for organizing results in the ACHA-NCHA report documents. Respondents are reported as cis men or cis women only when their responses to 67A, 67B, and 67C are consistent with one another. If gender identity is consistent with sex at birth AND "no" is selected for transgender, then respondents are designated as either cis men or cis women in RSEX. If respondents select "yes" for transgender OR their sex at birth is not consistent with their gender identity, then they are designated as transgender/gender non-conforming in RSEX. A respondent that selects "intersex" for sex at birth, "no" for transgender, and man or woman for gender identity are designated as cis men or cis women in RSEX. A respondent that selects "intersex" for sex at birth, "yes" for transgender, or selects a gender identity other than man or woman are designated as transgender/gender non-conforming in RSEX. A respondent that selects "another identity" on 67C is designated missing in RSEX. A respondent that skips any of the three questions is designated as missing in RSEX. Totals displayed in this report include missing responses. Please see the ACHA-NCHA III survey codebook for more information about how data on sex and gender are coded. Please note: if your data contain a small number of transgender and gender non-conforming students, we advise you to take caution in sharing this report, as these students' responses may make it possible to identify who they are.

Beginning in Spring 2021, responses for transgender and gender-nonconforming students became readily available directly in the report documents.

Important considerations with this format

- Percentages in the Executive Summary may represent a very small number of TGNC students and can limit the generalizability of a particular finding. To assist with the interpretation of the percentages displayed in the Executive Summary, the total sample size for each group has been added to every page.
- We encourage ACHA-NCHA surveyors to carefully review their report documents, particularly among the student demographic variables, and consider students who may be inadvertently identified in the results based on a unique combination of the demographic characteristics before sharing the documents widely or publicly. This is especially true for very small schools, as well as schools that lack diversity in the student population.
- Think about the implication of working with and documenting very small samples – from the perspective of making meaningful interpretations, as well as the privacy of respondents. This is true of all demographic variables, and not limited to gender identity. You may consider a minimum cell size or another threshold by which you make decisions about making your Institutional Data Report publicly available. It is less of a concern in your Institutional Executive Summary as we only display the percentages with the overall sample size.

FREQUENCY REPORT

Number of Surveys (n) = 17167 Web Surveys

Frequency tables are presented for every multiple choice and select all that apply questions from the survey. The mean, median, standard deviation, minimum, and maximum values are provided for the variables that are continuous, as well as those scales within the survey that produce a score.

Space for value labels associated with each response option is limited in this document and are often abbreviated for brevity. Furthermore, response options are listed in numeric order within the frequency tables, which may differ from the way they appear to students in the survey. [Please always refer to the survey codebook rather than this report document for the exact wording of survey questions and the associated response options.](#)

1) How would you describe your overall health?

	Cis Men		Cis Women		Trans/Gender Non-conforming		Total	
	Freq.	Pct.	Freq.	Pct.	Freq.	Pct.	Freq.	Pct.
1 Excellent	933	20	1177	11	43	6	2171	13.4

Due to the improbability of a student surviving a drinking episode resulting in an extremely high BAC, all students with a BAC of .50% or higher are omitted from the BAC figures in this report. BAC is an estimated figure based on the reported number of drinks consumed during the last time they drank alcohol in a social setting, their approximate time of consumption, sex, weight, and the average rate of ethanol metabolism. The BAC variable has only been altered for this report, and remains unchanged in the data file.
